# About Us

Back in 1986, a simple idea was born in Jabalpur: the idea to create high quality storage solutions that would provide customers the assurance of maximum safety and durability.

For three decades, the company's vision has expanded to safely store the dreams of customers with our industry certified products of the highest accreditation. Our three state-of-the-art manufacturing units and fully integrated manufacturing process result in the visible Primo Pick N. Pack difference.

Our commitment to excellence, detail and customer satisfaction has led to us being leading manufacturers of:

- **FIBC / Jumbo Bags**
- **PP Woven Bags / Small Bags**
- **PP Woven Fabrics**
- **PP Woven Bale Wrap**
- **Woven Ground Covers**

Our plans for the future are as diverse as our product range, and our driving force will continue to be storing a loyal and satisfied client base.

Our packaging products are packed with a lot more than just the best materials

HONEST

## Phase 1

- Tape Extrusion
- Weaving
- Webbing
- Coating
- UV Weatherometer
- Tensile Strength Testing

## Phase 2

- Cutting & Printing
- Finishing Process
- Inspection
- Top Lift Testing

## Phase 3

- Bailing & Palletizing
- Storage
- Loading
- Dispatch

# Leaders in Quality Management

We believe that quality is not only reflected in the strength of the packaging, but that it is also derived from the **quality of our products, our manufacturing process and the working conditions of our employees**. Our dedicated in-house quality department runs all these aspects and is committed to delivering the highest quality packaging and excellent service.

Our mission is to create an ever-growing base of satisfied customers by providing the highest quality goods produced from the region of Jabalpur, where we aim to provide job opportunities to boost the socio-economic development of the area. Primo Pick N. Pack stands for **protecting, preserving and safely transporting** all sorts of products across the world along with engaging in constant development of premium and modern storage solutions.

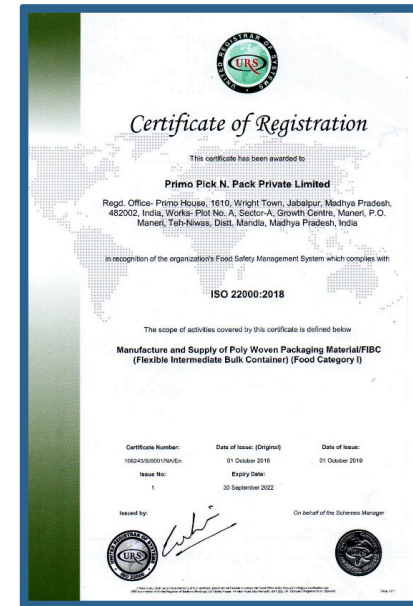

# Certifications

ISO 9001:2015

# Product List

*Our wide array of standard and customized packaging solutions enables us to offer ample choices in colour, sizes, quantity and quality to choose from.*

## ■ PP Woven Fabrics

Our PP Woven Fabric provides strong, dependable and economical packaging options for diverse industries across the globe. These fabrics are light in weight and ideally suited for packing corrugated or wooden boxes, cloth bales, machinery and many other finished goods for complete protection. They can be customised in length, weight, gusset, meshes and colours to suit the client's demand. Its salient features are as follows:

- Long Lasting
- Resistant to heat
- Eco-friendly

## ■ PP Woven Sacks / Small Bags

Our water and moisture proof polypropylene sacks are ideal for packing cement, chemicals and fertilizers. They are available in a host of fascinating colors, designs and sizes. Features are as follows:

- Light weight, easy & cheap to transport
- Bright 4 color printing
- Can be gusseted to further improve stacking
- Can be coated OR uncoated
- High tensile strength and durability
- Cost effective
- No Seepages, especially in poly lined or laminated bags

# Product List

## ■ PP Woven Bale Wrap

Our Bale wrap has unique characteristics:

- Contamination control
- Width control
- Flat surface winding
- Winding consistency
- Splice control on each roll
- Quality Fabric
- Coated or Uncoated

Compressible Bale covers are wrapping made of woven polypropylene. They are used in automatic hydraulic or pneumatic bale press.

With a variety of sizes, we can accommodate any order with tear and puncture-resistant woven polypropylene bale wraps that are impervious to moisture and won't succumb to mildew or rotting. The bale wraps can be printed to suit the branding requirement of your product.

## ■ PP Woven Ground Covers

Widely used in nurseries, greenhouses, horticulture industry and other similar areas, the entire range of Ground covers is UV treated for better performance and long lasting finish.

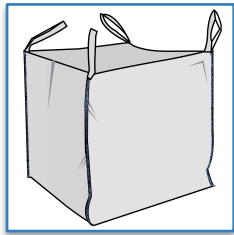

We have a wide range of landscaping fabrics, available in different GSMs, roll lengths and widths. It is the perfect solution for successfully suppressing the weed growth and at the same time allowing the nutrients and water to pass through.

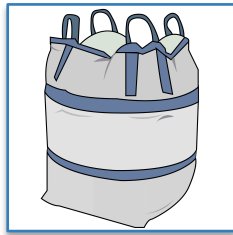

# Product List

Anti Static/Type D Bag

# Product FEATURES

## 100% Recyclable

FIBC is completely recycle friendly

## Fabric

Uncoated (60-250GSM)  
Coated (15-50GSM) &  
Ventilated

## Lifting Loops

Available in various sizes,  
colours and styles

## Liners

Loosely inserted  
Shaped (with glue/tape)

## Certification

ISO 9001:2015  
ISO 14001:2015  
ISO 22000:2018

## Fabric Width

33 cm - 200 cm

## Printing

Upto 4 colours

## Document Pockets

Subject to Buyer requirements  
(A4, A5, etc.)

## U/V Stabilization

All components of FIBCs are  
U/V Stabilised

## Lamination Width

48 cm – 200 cm

## Sewing Thread

All colours are defined by  
Pantone System

## Safety Working Load (SWL)

25 kg – 2000 kg

## Traceability

Can be traced back to the  
Order no and Production  
date

## Denier

Tape: 480-3000  
Thread 1000-6000

## Sewing Types

Normal & Dust proof  
sewing

## Safety Factors (SF)

5:1, 6:1 & 8:1
